I hope everyone has noticed the new addition to our House. At our rear parking lot entrance we now have a chair lift. Dean and crew are in the process of completing the lift project, putting in some guards and hardwiring the lift in.... JRSC will be soon handicapped accessible. Thank you all so much.

Be sure to stop by the club on Friday nights. From 6-8, EDISTO, our own Sandy Burke's band will be playing at the club. They play a mix of country, blues, folk, and a southern back water. It's been really enjoyable, and I smile all night. Plus our kitchen is open and Stephanie has been providing great meals.

Our first adult sail group has graduated. Some still need sailing time but we have lots of good sailing weather left in the season. You may have met some of them as we have had quite a few show up for Thursday night racing and they are showing their skills. One team changed jibs mid race and another new sailor was working the sails like a pro and her boat beat our own DON. I think we may have some new, VERY competitive members in the wings.

Our basement project is complete. Walls are repaired, leaks fixed, and floor and walls all painted. We are in the process of setting it up as a training/small meeting room.

The Gulburg Race out of Meinkes/Anchor Point was held this past Saturday. We had five bigger boats participate. There was about 2 hours of good sailing, then, as we approached the Harbor Light, the wind died. At that point, the race was called for lack of wind...as in **no wind at all!!!** After the race, many of us met and had gulburgers at Meinkes. Many thanks to Tom Beck for sponsoring and promoting this fun event.

Lastly, we are less than a month away from the Dyer Dinghy drawing. It will be held AUGUST 27 at the Fall Series awards ceremony. Anyone who wants tickets, contact me at 419-466-8919 or send me an email. This raffle is the perfect opportunity to support your club and have a chance to win a beautiful DINGHY worth \$5,000. If every member buys one ticket, it will have been a great success.

Three-Foot-Itis

So let me tell you about someone you've never met. His name is Sven Yrvind. (No, he's not from Middle Earth. He is a real person.)

Sven is Swedish. He's 83 years old. He sails big oceans on small boats. Really small boats.

His first boat was "Bris" ...a little over 19 feet, which he built in his mom's basement. He eventually rounded Cape Horn on "Bris" and wrote a book about it. Aptly named "With Bris Round Cape Horn". When I think "bris", I imagine something entirely non-nautical (and painful)...but I digress.

A couple boats later, in 2018, Sven completed "Exlex". Again, that name makes me think of something else...but "Exlex" in Swedish means "Outlaw". This new boat was even smaller...18 feet, 11 inches, and only 3.5 feet wide. With a couple stops and starts along the way, "Exlex" made it from Norway to the Azores in 2021. You see, "Exlex" sails very slowly...about two knots.

You can find out more about Sven at www.yrvind.com.

So why do I bring up Sven Yrvind? Well he's four I's. Intrepid...Interesting...Inspirational...and Immune to Three-Foot-Itis. Yes, that dreaded disease that some of us suffer from.

Those infected buy an 18 foot Interlake or 22 foot Catalina and immediately start thinking about a larger boat. "A twenty five footer would be great." From there twenty seven feet is in range...then thirty and beyond. Where does it end?

It ends when you realize that you can have as much fun on an 18 foot boat as you can on an 80 foot one. Sure you won't have a flat screen TV in the salon, but who goes sailing in order to watch television? You won't have an enclosed head, but buckets have worked reliably for hundreds of years.

And here is a “truth” that you may not know. (Come closer while I whisper a revelation.) Small boats get sailed more often than large boats. And they are much cheaper to maintain, dock, and store.

When I owned a Catalina 22, I suffered badly from Three-Foot-Itis. “There is no cure,” I sadly told myself as I searched online for a bigger boat. Then I moved up to my Columbia (28+ feet). I moved from JRSC to Toledo Beach Marina and started racing against NCYC sailors. Sure I was having fun...but not any more fun than I had with the Catalina at JRSC. Then Mary reduced her time sailing with me because the big boat was just “too much work”.

My inoculation against Three-Foot-Itis came last year when I drove to Iowa (a true sailing mecca) and towed back my 18’ Seaward Fox catboat. My case of Three-Foot-Itis had ended. A desire for a larger boat no longer haunts me.

The Seaward catboat is incredibly fun to sail. Mary loves it (as does anyone else who has sailed with me). It’s easy to single hand. It’s cheap to maintain. We can tow it. And we’re planning trips to the Finger Lakes and beyond. (Couldn’t do that with the Columbia.)

JRSC is a small boat club! It started out that way back in 1946. As long as we remain on the Ottawa River, we’ll remain a small boat club. (I was pleasantly surprised this year when most of our Adult Sailing Students preferred to go out on small boats.)

I’m certainly not alone in my defeat of Three-Foot-Itis. Many of our JRSC big boaters now own small boats too. Come to the club on a Thursday night and see how many fellow members are having a blast on small boats.

My Seaward Fox will always dock at JRSC, but at 18 feet it might be a little too big for efficient towing and ramp launching. A 14 foot Com-Pac Picnic Cat is starting to look pretty good...

Yikes! I’m starting to show signs of a new infection, Just-One-More-Boat-Itis. Sadly, for this there is no known cure.

VESSEL SAFETY CHECK

The purpose of the Vessel Safety Check (VSC) is to assure that the vessel is in compliance with State and Federal requirements. In other words, that the vessel is equipped to operate safely on our waterways. VSC is free and takes fifteen to thirty minutes to complete, contingent upon the length and type of vessel. Vessels that meet VSC requirements are awarded a decal, an indication to other boaters that the vessel meets minimum requirements to operate safely.

VSC Decal Requirements

- ⇒ Display of Registration number
- ⇒ State/Federal Registration Documents
- ⇒ Personal Flotation Devices
- ⇒ Visual Distress Signals
- ⇒ Fire Extinguishers (must be less than 12 years old)
- ⇒ Ventilation (gasoline inboard engines)
- ⇒ Backfire Flame Control (gasoline inboard engines)
- ⇒ Sounding Producing Devices
- ⇒ Navigation Lights
- ⇒ Pollution Placard (vessels 26 ft. and over)
- ⇒ MARPOL Trash Placard (vessels 26 ft. and over)
- ⇒ Marine Sanitation Devices
- ⇒ Navigation Rules (vessel 39.4 ft. and over)
- ⇒ State /Local Requirements

Brief explanations of the above requirements are available on request: email John Miga at migajm@toast.net to download a copy.

To schedule a VSC: contact John Miga.....consider having VSC before launching.

ALL boats on the JRSC FINGER DOCKS need to be on the hard by October 2, 2022. Also, any boats using the BULKHEAD for summer storage should be moved to the yard as this space will be needed for finger dock storage. After that date we will begin pulling the docks for the winter.

Last year, the City of Toledo installed the winter bulkhead before we could get the docks pulled. This caused considerable damage to the docks and resulted in lost revenue to the club. The City of Toledo's history is to close the bulkhead around October 15.

We are, therefore, requesting all boats be off the docks and bulkhead by October 2, this will give us 2 weekends to get the finger docks on the hard.

Once the finger docks are on the bulkhead, we will have work parties to restore and refurbish the fingers so we can have a smooth installation next Spring.

Thank you.

Commodore Jan
